

# Kickoff - lecture 6

Peter Ganong and Maggie Shi

# Curve

- The grade cutoffs in syllabus are a floor
- If needed, we will curve so that this year has same letter grade distribution as last year

# PS1 grading

Grading only for completion (50%, 90%, 100%)

In order for your submission to be considered complete, you need to push both your .qmd and the compiled PDF to your repository. Submissions that do not include both files will automatically receive 50% credit.

# Debrief: week 3 quiz common mistakes

- First pass at grading done, but not ready to release. So far, grades look better than week 2's quiz.
- Q1: not showing the chart (`chart` should be last line or include `display(chart)`)
- Q2: not calculating distance to FPL, age as `N`

# Midcourse survey

- Harris survey - sent out today
- Our own survey - released next Tuesday on Canvas
- Both anonymous
- Prof. Ganong (and his kids) will bake something for the section with the highest participation!
